

CNG Fueling Equipment Solutions

Green & Clean Natural Gas Technologies by **GALILEO**

Information to Help Determine the Best Solution for Your CNG Project

- What is the gas feed inlet pressure (please specify seasonal high and low)?
- What type of power is currently available at this location?
- Please provide the following data related to vehicles, fueling capacity and frequency
- Estimated vehicles per day and tank size(s)
- Total daily GGe output expected daily
- Range of times when fueling occurs especially if any daily fueling spikes are anticipated
- Are you looking for a “time fill” or “fast fill” solution?
- What is your target GGe per minute
- Will this site be for private or public fueling?
- Do you need credit card payment capabilities?
- If you have space restrictions please provide details and/or site plan
- Is there a price target that you are trying to hit?
- Have you looked at any other fueling equipment?
- If so, please provide any details that you feel are key to your plan
- What is your project timeline?
- Are there any specific requirements and/or features that you need to have or that you like about any systems that you’ve already looked at?
