

LCNG Fueling Equipment Solutions

Green & Clean LNG Fueling Technologies by **GALILEO**

PATAGONIA™ is the world's first fully automated modular LCNG platform which can be installed in virtually any location. No natural gas connections, no special permits required. Patagonia™ was designed to make CNG and LNG immediately available at any site, with no infrastructure nor heavy CAPEX requirements,

The World's First Compact LCNG Station

- Stores over 1400 gallons of LNG (1,000 GGE)
- Chose to dispense CNG or LNG directly into vehicles
- Includes SCADA remote monitoring
- Automatic refilling notification when LNG storage reaches predetermined level
- Small footprint and reliable Galileo technology already used worldwide
- Fully enclosed in its own explosion proof cabinet for maximum safety
- Compact 50HP electric motor compresses natural gas to 250bar/3600psi
- Patented LNG vehicle and storage boil off recovery system
- CNG fueling capacity of 7 GGE/min
- LNG fueling capacity of 40 GGE/min
