

Fast charging up to 50kW on the Enel X JuiceNet™ network: JuicePump™

Boost your business' electric vehicle infrastructure with JuicePump, Verdek's DC fast charging (DCFC) solution from Enel X. Attract new customers with charging stations that can bring most EVs to an 80% charge within 30 minutes. Minimize maintenance costs with a state-of-the-art liquid-cooling system that keeps your station operating smoothly in all conditions.

- Attract more visitors to your business by offering high-speed EV charging
- Save on delivery and installation with compact and lightweight design
- Configure access and payment settings from the JuiceNet* Enterprise smart charging dashboard
- Generate revenue with digital payment terminal and in-app software payment options
- Invest in a durable solution with UV-resistant exterior and 3-year manufacturer's warranty

Incentive Eligible

JuicePump is approved for utility and state-sponsored incentive programs including CALeVIP

Faster Charging

Drivers can charge vehicles up to 80% within 30 minutes

Customize Access

Use the JuiceNet software platform to restrict station access and collect payment
