

## Affordable, smart EV charging on a small footprint, for businesses or the workplace

Durable and affordable, JuiceStand is the perfect solution for workplaces and small businesses who expect light to medium EV traffic. JuiceStand's small footprint is ideally suited for locations with limited parking space, and can include one or two UL Listed JuiceBox\* units, which are compatible with all electric vehicles. JuiceStand is Enel X's most affordable commercial EV charging solution and offers all of the same smart charging features for businesses that want to offer private or public charging.

- Save on installation with cost-effective ground-mounted smart charging stations
- Add one or two smart charging stations to meet your current and evolving needs
- Connect to the internet via cellular, Ethernet and WiFi for smart charging capabilities
- Optimize energy costs and avoid demand charges with the JuiceNet\* IoT platform
- Offer public charging or paid private charging to authorized users with user authentication via JuiceNet Enterprise

### Industrial Design

Robust steel-construction stand designed for durability in all weather conditions

### Power Options

Choose between a 32 amp, 40 amp, 48 amp or 80 amp output and include one or two JuiceBox charging stations

### Public or Private

Offer public charging or allow drivers to pay via mobile device or RFID card (JuiceNet Enterprise only)
