

Smart curbside level 2 charging station ideal for public and commercial sites

The SmartTWO-BSR charging station is specifically designed for curbside installation, where robustness, durability and access control systems are critical. Its height is optimized to reach the EV charging port regardless of the position of the car.

SmartTWO-BSR's slick design allows it to blend harmoniously with the urban landscape, while still being as robust and vandal-resistant as all Flo-branded charging station models.

- Complete remote management capabilities including software and firmware updates
- Deliver real-time updates and notifications to drivers
- Units can be wall-mounted, pole-mounted, or pedestal-based, with the option of single, dual, or quadruple ports.*
- Configure stations to authorize access using the FLO mobile app or RFID card authentication
- Option to implement payment services to generate revenue

All-Weather Ready

Certified to operate in temperatures ranging from -40 °F to 122 °F, with flexible cable in extreme cold

Durable Design

NEMA 3R cast aluminum casing ensures protection against corrosion and the wear and tear of public use

Show Off Your Brand

The SmartTWO-BSR comes in its original colour, but can be modified with your custom signage.
