

Smart level 2 charging station ideal for public and commercial applications

Flo's SmartTWO charging stations are designed for outdoor and indoor vandal-prone public areas, or any site where robustness, durability and access control systems are critical.

The SmartTWO comes with a patented door locking mechanism,* unlocking only when a user authenticates. The connector cannot be tampered with, nor damaged by the harshest weather.

- Complete remote management capabilities including software and firmware updates
- Deliver real-time updates and notifications to drivers
- Units can be wall-mounted, pole-mounted, or pedestal-based, with the option of single, dual, or quadruple ports.*
- Configure stations to authorize access using the FLO mobile app or RFID card authentication
- Option to implement payment services to generate revenue

All-Weather Ready

Certified to operate in temperatures ranging from -40 °F to 122 °F, with flexible cable in extreme cold

Durable Design

NEMA 3R cast aluminum casing ensures protection against corrosion and the wear and tear of public use

Show Off Your Brand

The SmartTWO comes in its original colour, but can be modified with your custom signage.
