CT3000 Launch

With the introduction of the CT3000, we can now offer a full product range of charging stations for all your requirements. [Learn More](#)

Level 3 ChargePoint

Verdek is pleased to announce that the CT3000, ChargePoint Level 3, is ready for shipments. We take orders for delivery in January 2011. Verdek offers the optimal solution for your requirements. Please email us at coulomb@verdek.com to arrange for a site survey.

CHARGEPOINT CT3000-THE FAST CHARGING OPTION

The CT3000 family of DC Fast Charge Stations provides 50 kW charging and is designed for both indoor and outdoor private and public applications for the North American marketplace. Charging is delivered via a CHAdeMO standard connector and protocol, and is ideal for fleet and commercial uses.

Intuitive

Provide drivers with the best user experience that includes intuitive touch screen interface and pedestrian-friendly cable storage.

Future Proof

Protect your investment in the midst of changing industry standards. The station accommodates multiple connector types and remote, over-the-air software upgrades, ensuring uninterrupted business in the event of a transition away from today's connector and vehicle communications standard.

Secure

Enhance safety and eliminate energy theft with authorized access only for drivers using a ChargePass

Proven

Designed, engineered and manufactured in the United States, the CT3000 leverages Aker Wade's proven industrial fast charge technology.

Bold Branding Statement

Illuminated side panels and custom graphic options make a bold statement for your city, company or brand.

The ChargePoint Network Makes It Work

With ChargePoint Network integration, range anxiety is no longer a worry when a nearby, available CT3000 can always be located from any web browser, smart phone, or onboard navigation system. The network offers reliability while giving you a new business opportunity.

™ card or contactless credit card. Optional locking automated security door protects cabling, connectors, and the front panel display when the station is not in use.

CT 3000 Fast Charging Models

Code	Model	Type	Power
- CT3001	Sarge	Single Port	50KW
- CT3002	Sentinel	Dual Port	2 X 50KW

Have you downloaded the iPhone and/or BlackBerry Apps for Chargepoint? It is easy and you will always be in control. Thanks to ChargePoint Network, you will know where the closest charging station is and if it is free to use.

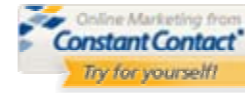

The EV-Evolution is happening now. Newspapers and TV have drastically increased the coverage of the upcoming launches of the Nissan Leaf and the GM Volt. The CT3000 enhances ChargePoint product range. Verdek now can offer Level 1, Level 2 and Level 3 to its customers. Like the previous products also the CT3000 benefits of the advantages of ChargePoint Network Operating System. Verdek offers the most efficient EV charging solution.

Sincerely,

Guy Mannino
Verdek
