Alternative Fuel Price Report

Verdek is a leading industry expert and distributor of CNG fueling solutions which are the most technologically advanced CNG fueling systems on the market today. They are all scalable, plug and play, portable, and more cost effective enabling any fleet operation to match your fueling infrastructure with your specific fleet profile. If you need a responsive and reliable expert to assist with your CNG fueling infrastructure needs or research, **Verdek** is your best choice.

New Galileo Gigabox Ribbon Cutting in Lake Forest California

The station provides fueling at up to 12 GGE per minute

FirstCNG LLC has opened a new compressed natural gas (CNG) station in Lake Forest, Calif.

The facility, branded Titan NGV Fueling, is located just off Interstate 5 at 24201 El Toro Rd. The station provides fueling at up to 12 GGE per minute by utilizing a Galileo Gigabox

National Average Price Between October 1 and October 15, 2014

Fuel	Price
Biodiesel (B20)	\$3.81/gallon
Biodiesel (B99-B100)	\$4.21/gallon
Electricity	\$0.12/kWh
Ethanol (E85)	\$2.88/gallon
Natural Gas (CNG)	\$2.16/GGE
Propane	\$3.08/gallon
Gasoline	\$3.34/gallon
Diesel	\$3.77/gallon

The Clean Cities Alternative Fuel Price Report provides regional alternative and conventional fuel prices for biodiesel, compressed natural gas, ethanol, hydrogen, propane, gasoline, and diesel.

ACT Expo 2015 Agenda Released

The 2015 ACT Expo is taking shape, with a trio of tours, on the afternoon of Thursday, May 7, of Dallas-area clean transportation installations. ACT Expo organizer GNA - Gladstein, Neandross & Associates - notes that Dallas is one of the largest growing markets for alternative fueled transportation due to "aggressive fleet operators making the change and support from tremendous statewide incentives and emission reduction programs."

ACT Expo attendees have the chance to get a behind-the-scenes look at what they're doing. ACT Expo itself runs May 4-7 at the Kay Bailey Hutchison Convention Center in Dallas.

Virtual Pipeline™: a mobile CNG refueling station will supply fleets in New York

The Virtual Pipeline system, designed by Galileo Technologies and distributed by Verdek LLC to transport natural gas by road where there are no pipelines, will be used as a mobile CNG station.

This is the first device featuring those characteristics in the United States, where CNG is becoming a significant and cost effective alternative to traditional liquid fuels.

Mobile Fuel Solutions (MFS), a New York company specializing in the supply of CNG fuel, is preparing to set up the first one of two Virtual Pipeline™ systems to fuel up two large fleets, one that transports goods and the other one offering public services, both at refueling places and on the road.

MFS is convinced that this system of mobile fuel delivery will eliminate the logistic barriers that have thus far hindered the use of natural gas vehicles, as it will allow many more companies to choose this clean, cost effective, and price stable fuel without the need to invest in their own fueling stations which are expensive and require complex construction and installation expertise.
