Chevy reveals specs and price for 2014 Spark EV

"Chevrolet's 2014 Spark EV will have its official coming out party at the upcoming Los Angeles Auto Show, but GM has released a few details ahead of the ball. It plans to price the electric hatchback under \$32,500 (before incentives), slightly undercutting the \$35,200 Nissan LEAF, and to sell it in several global markets (not just California)". VERDEK INSTALLS CHARGEPOINT ELECTRIC VEHICLE CHARGING STATION AT OKLAHOMA CITY CIVIC CENTER MUSIC HALL

PHOENIX (December, 2012) - Verdek LLC installed a ChargePoint electric vehicle charging station near the Civic Center Music Hall in downtown Oklahoma City, OK.

Officials of Oklahoma City unveiled a ChargePoint electric charging station near the Civic Center Music Hall downtown. The charging station is one of the new CT2025 model stations manufactured by ChargePoint.

The station represents the latest in electric vehicle charging station products promoted by Verdek LLC, one of ChargePoint largest distributors in the U.S.. "This particular model really stands out because of its tall profile, which makes it very visible in all parking areas." stated Guy Mannino, President/CEO of Verdek LLC. "This station model features a unique cord management system which is self retracting and a light on top of the station making it more visible at night. The station is capable of charging two electric vehicles at the same time also makes it more cost effective."

proof point... has turned into a real-world starting point to push EV technology further and faster than we thought possible five years ago," she said.

"The unique propulsion technology pioneered in the Volt - the same technology that will be featured in the Cadillac ELR - will be a core piece of our electrification strategy going forward."

"When we introduced the Chevy Volt in late 2010, we put a stake in the ground that said GM is in the electrification game in a very big way," she said. "Incidentally, Volt enjoyed its best sales month ever in October, selling nearly 3,000 units in the U.S. alone.
