Report Advises Car Manufacturers Not to Ignore EV Market

Any car manufacturer which doesn't develop a range of electric vehicles by 2025 are "signing its own death warrant", according to a new report by IDTechEx.

2011 Electric Vehicle Sales Higher Than Anticipated

Listening to the media, one would get the impression that sales of the plug-in Chevy Volt and electric Nissan Leaf are falling short of expectations, and that Americans are showing little interest in the cars. Sales figures for 2011 are now out and they show a different picture.
