

NV Energy is Funding up to \$105,000 per location for EV Charging Stations

NV Energy is providing electric vehicle charging station incentives to businesses throughout NV Energy's service territory. The application process is simple with very few strings attached. Verdek can provide you with an instant rebate providing immediate savings with no strings attached or complication on your part. The funding is being provided on a first-come first-serve basis.

OVER 30 businesses are already in the process of applying for funding so don't delay and let us provide more details on how you can take advantage of this program today!

"The incentive program is providing funding for up to **five (5)** Dual Port Level 2 charging stations as well as **five (5)** Fast DC charging stations per location/site. This funding program is by far the best incentive in the country right now covering close to 100% of the station equipment costs" commented Rudy Garcia, Verdek LLC Vice President of Sales & Marketing.

Verdek has an extensive amount of experience with all previous NV Energy charging station incentive programs and helped to install the vast majority of all charging stations throughout the State of Nevada. Verdek can provide a seamless turn-key solution, assisting with site selection, installation and station requirements, as well as all on-going support and assistance needed to maintain a worry-free environment long-term.

Don't hesitate to contact us TODAY at info@verdek.com or call (888) 336-3734 so we can review the NV Energy program details that will enable you to qualify and benefit from this great opportunity before the funding runs out.
