Verdek Residential Charger

Now Available at \$ 585.00 + Shipping & Handling

The new Verdek Residential Charger is designed to charge all electric and plug-in hybrid vehicles. It provides a safe, yet simple way to charge for an all-round better user experience. With three distinctly-colored LEDs, it's easy to know when the charging plug is connected or charging has started.

The stand alone ergonomic holster allows you to stow away the charging cord close to the EV charging inlet. With the functional holster design, the charging coupler naturally tilts down, keeping the charging coupler and cord out of the way. The station is indoor and outdoor rated and includes surge protection offering you many more mounting location options. The NEMA 6-50 plug is an included option providing you with the capability to easily re-location the station.

Key Features

- Easy to use (plug and charge)
- Full 7.2 KW output (rated at 30 Amp) and 18' cable
- NEMA 6-50 plug enables easy re-location
- Simple LED indicators (Ready, Charging and Fault)
- Ergonomic holster design
- Charger can be switched off when not in use
- Wall-mounted with tamper-proof security screws
- Indoor and outdoor UL rated
