“VERDEK LLC AND PRIMUS ELECTRIC FORM STRATEGIC PARTNERSHIP THROUGH A MEMORANDUM OF UNDERSTANDING.”

PHOENIX (March, 2013) – Verdek LLC and Primus Electric have signed an M.O.U. creating a strategic partnership to more completely serve businesses and private individuals in need of electric vehicle charging supply equipment (EVSE). The M.O.U. is part of a Verdek LLC program titled, Verdek Strategic Partnership or VSP. It is designed as a strategy that provides consumers with a more complete service offering, combining Verdek’s EVSE products and technical expertise with Primus Electric’s electrical contracting, EVSE installation, service and maintenance experience and capabilities.

“Primus Electric, is most recently known for having installed hundreds of residential charging stations related to the EVProject throughout the state of Arizona.” commented Guy Mannino, President/CEO of Verdek LLC. “We are pleased to be working with Primus Electric more strategically in order to offer new EV owners and businesses seeking to add this new electric vehicle charging amenity to their properties a more complete and turn-key solution. The combined expertise and resources of both our companies is a great complement and we’re looking forward to launching joint marketing and sales efforts that will increase opportunities for both our companies.”

“We are proud to be an integral partner of Verdek in this green impact initiative. This partnership will solidify our involvement in the EVSE market.” commented Ken Primus, founder and CEO of Primus Electric.

“Having a company like Primus Electric on board with our VSP program is a win-win for everyone.” commented Rudy Garcia, National Sales Director for Verdek LLC. The experience that Primus gained through the process of installing hundreds of charging station as part of the EVProject in Arizona places them above any other contractor doing this type of work. In spite of what some people may think, installing charging stations requires expertise in understanding the equipment and how it interacts with the vehicles. There are safety and technical areas of this equipment that need to be considered with each installation. Anyone choosing the Verdek and Primus team can be assured that they are receiving services from two of the most experienced companies in the EVSE industry.”

About the Primus Electric:

Primus Electric® is full service electrical contractor. Primus performs services for residential and commercial applications and specializes in the installation of electric vehicle charging stations. They have been certified by Schneider Electric as EcoXperts which validates their expertise in the operation and installation of electric vehicle charging stations. They are also certified by Leviton, and recently performed all the ECOTality residential Blink charging station installations as part of the EVProject. Primus is licensed, bonded and insured and operate throughout the state of Arizona.

About Verdek LLC:

VERDEK LLC provides clean fueling solutions for fleets, municipalities, retailers, and building owners. Products include charging stations for electric vehicles and CNG fueling stations. Verdek’s sales and support team members are experts in both alternative fuel options and provide products that are world class in their technology and that are also ranked number one in each industry. Both fuel sources are cleaner and reduce our dependency on foreign sources of oil. CNG has become abundant in the US and electricity production is continuously shifting toward cleaner production methods such solar and wind making both fuels a very attractive and clean option for fleet owners/operators and consumers.
